DIRECTIONS TO ELECTRIC WHARF

Finding Electric Wharf

4 The Cable Yard Electric Wharf Coventry CV1 4HA

Situated near the City Centre, Electric Wharf is quickly accessible via the ring road, Junction 9.

You'll find it tucked neatly behind Sandy Lane Business Park, so the entrance can appear a little concealed at first. Electric Wharf shares the access road for Sandy Lane Business Park so once you've turned into the access road you'll find Electric Wharf straight ahead and Sandy Lane Business Park to your right.

*If using Satnav/Google Maps, be sure the destination looks correct. If it doesn't try using this postcode instead: **CV1 4JA***

Visitor Parking

Electric Wharf is a gated complex, so the ability to drive through is limited to staff only. Visitor parking is provided along the outside of the complex. Once parked, you will need to make your way up to the visitor entrance and walk over to the Cable Yard.

Should you be fortunate enough to arrive when someone has just opened the gates, feel free to drive round and park up in our assigned parking #183 or #184.

Our Studio

So you've made it to the Cable Yard, what now?

You simply need to buzz us using the buttons to the right of the door. It's an automatic door, so watch out as it will swing open as we let you in.

We're up on the First Floor, in the office right of the stairway. See you soon.
